

TEJUS SHARMA

ENTERPRISE AI SOLUTIONS ARCHITECT | Director Of Growth

Mumbai, India | +91 98118 60650 | tejus.sharma10@gmail.com | LinkedIn | GitHub | EvolutionCo

Portfolio: TrainAI | AI Portfolio Amplifier | Xfactorz | PhysioByRutvi

1. EXECUTIVE PROFILE

Enterprise AI solutions and product leader with nearly five years of experience across enterprise discovery, AI product strategy, solution architecture, UX, pre-sales and commercialisation. Converts ambiguous business requirements into use cases, PRDs, user journeys, AI/LLM architectures, cost models, proposals, pilots and delivery plans. Currently leads group-wide AI productisation and growth strategy at EvolutionCo, operating in a forward-deployed manner across customer discovery, solution shaping, executive communication and cross-functional implementation. Sector exposure includes BFSI, manufacturing, government, learning, healthcare, real estate, retail, hospitality, entertainment and spatial computing.

2. LEADERSHIP & IMPACT SNAPSHOT

5 yrs	Product, UX, pre-sales and AI solutioning	7+	AI/SaaS/phygital products shaped
4	Maximum direct team size built and managed	50	Devices in a major public-sector solution scope

3. CORE EXPERTISE

Enterprise AI & Architecture GenAI use cases, RAG, knowledge systems, agentic workflows, multimodal orchestration, human-in-the-loop, AI governance	Product & Experience Product strategy, PRDs, roadmaps, role-based journeys, information architecture, UX/CX, service design, SaaS platform definition
Pre-Sales & Commercial Discovery workshops, proposals, RFPs, solution narratives, estimation, pricing, vendor evaluation, credit and cost models	Leadership & Delivery Cross-functional team leadership, backlog definition, partner management, pilot planning, QA, stakeholder alignment, executive storytelling
Platforms & Integration APIs, microservices concepts, multi-tenant SaaS, authentication, analytics, billing, background jobs, integrations, cloud delivery	Industries BFSI, learning, manufacturing, government, healthcare, real estate, retail, hospitality, entertainment, spatial/XR experiences
AI Providers & Models OpenAI, Claude, DeepSeek, GLM, OpenRouter, embeddings, vector search, HeyGen, ElevenLabs, image/video generation	Technical Fluency Next.js, React, Node.js, Python, FastAPI concepts, PostgreSQL, Redis, Docker, Git/GitHub, Frappe LMS, REST and webhooks

4. PROFESSIONAL EXPERIENCE

Director Of Growth | EvolutionCo Group

2026 - Present

Mumbai, India

- Lead group-wide AI productisation, enterprise growth strategy and pre-sales across product design, digital engineering, marketing, performance and immersive-experience divisions.
- Own end-to-end solution shaping from discovery and use-case prioritisation through PRDs, UX flows, architecture, vendor selection, cost models, commercials, proposals, pitch decks and pilot plans.
- Architected TrainAI, an enterprise AI learning and workforce-readiness platform spanning OCR/content ingestion, RAG knowledge layers, multi-model orchestration, AI course assembly, avatar/voice delivery, assessments, analytics, governance and integrations.
- Shaped product and go-to-market models for Xfactorz AI Concierge and Holobox experiences, AI Portfolio Amplifier, AI Theatre, CoreKultur and other vertical SaaS/phygital products.
- Built and managed a cross-functional team of up to four across AI development and business analysis; currently lead a focused three-person AI product pod converting strategy into roadmaps, backlogs, QA and demonstrations.
- Developed model/provider benchmarks, credit systems and fully loaded production-cost frameworks across LLM, image, video, voice and avatar providers; designed a 6-course x 3-seed benchmark to replace assumptions with measured acceptance and cost data.
- Selected enterprise engagements include Legrand India, Tata Power, PVR, Rivoli Group, OMIFCO, PGP Glass, Axis Bharat Banking and public-sector digital-experience and smart-courtroom programmes.

Progression within EvolutionCo: Pre-Sales Lead (2025-2026) | Pre-Sales Strategist & UX Designer (2024-2025) | UX Designer (2023-2024)

Pre-Sales Strategist & UX Designer | EvolutionCo Group

Feb 2023 - Jan 2026

Mumbai, India

- Designed enterprise digital experiences and pre-sales solutions across BFSI, product configurators, financial planning, e-commerce, learning and immersive technology.

- Mapped business requirements into information architecture, user journeys, wireframes, solution narratives, technical scopes and implementation roadmaps.
- Contributed to Legrand DIY and Arteor configurators, corporate payments and premium-banking modules, Rupee Rush, Guru Jyotish, Sanatan Dharam, BrandPulse and investment/life-planning platforms.
- Built repeatable presales workflows and an internal Eco Presales Strategist assistant to improve research, solution framing, documentation and proposal consistency.
- Partnered with account, engineering, design and leadership teams to improve proposal clarity, feasibility, user value and commercial alignment.

Product Strategist / Technical Solutions Advisor | SolPatrol

Dec 2021 - Jan 2023

Bengaluru / Remote

- Shaped product strategy and technical positioning for early-stage Web3 and blockchain solutions.
- Translated blockchain concepts into roadmaps, user journeys, token/NFT mechanics, partner narratives and technical documentation.
- Conducted market and competitor research to support product-market fit, prioritisation and go-to-market decisions.

5. SELECTED AI PRODUCTS & ENTERPRISE SOLUTIONS

TrainAI - Enterprise AI Learning & Workforce Readiness | [View](#)

Product strategy and solution architecture for a system that converts organisational knowledge into role-based courses, AI-generated slides and scripts, avatar-led delivery, assessments and leadership analytics. Defined ingestion, RAG, orchestration, review, publishing, analytics, governance and cost-metering layers.

Xfactorz Intelligent Experiences | [View](#)

AI concierge, Holobox and tangible-device ecosystem for enterprise and public spaces. Defined conversational experience flows, centralised content control, analytics and multi-location deployment models.

AI Portfolio Amplifier | [View](#)

AI publishing SaaS that converts raw project assets into case studies, carousels, videos and channel-ready portfolio content. Defined workspaces, multi-format ingestion, generation, refinement, publishing, versioning, usage limits and billing.

AI Theatre

Real-time conversational avatar experience for cinema and enterprise engagement, covering idle/listening/processing/speaking states, voice input, AI response generation, avatar delivery and dashboard requirements.

CoreKultur

Subscription-based AI marketing engine for real-estate brokers with specialised listing, social, visual and video agents; destination-ready outputs; monthly credits; premium packs and marketplace/channel add-ons.

Public-Sector Smart Courtroom & Kiosk Programme

Solution architecture and bid support for a multi-location programme covering smart courtrooms, national judicial self-service kiosks, approved AI application components, AR/VR, integrations, deployment support and L3 service responsibilities.

OMIFCO AI Manufacturing Experience

Connected AI knowledge and storytelling environment across an interactive Metawall, 32-inch Holobox advisor, collaborative table and post-visit digital experience, covering manufacturing, sustainability, safety and food security.

PhysioByRutvi | [View](#)

Co-founder responsible for product, brand, growth and digital systems for a home-physiotherapy business, including website architecture, multilingual experience, SEO, booking and lead-generation workflow.

6. TECHNOLOGY & DELIVERY FLUENCY

AI / LLM OpenAI, Claude, DeepSeek, GLM, OpenRouter, RAG, embeddings, vector search, prompt orchestration, agentic workflows, evaluations, cost routing	Voice / Avatar / Media HeyGen, ElevenLabs, speech-to-text, text-to-speech, real-time avatar experiences, AI image and video workflows
Product / Design Figma, discovery, PRDs, information architecture, prototyping, UX/CX, service design, role-based journeys, analytics, pricing	Application / Data Next.js, React, Node.js, Python, FastAPI concepts, REST APIs, webhooks, microservices concepts, PostgreSQL, Redis
Delivery / Infrastructure Docker, Git, GitHub, background workers, CI/CD concepts, cloud deployment concepts, Frappe LMS, authentication and access control	Business / Pre-Sales RFPs, proposals, scoping, estimation, vendor evaluation, commercial models, pitch decks, demos, executive stakeholder management

7. EDUCATION & CERTIFICATIONS

- Bachelor's Degree | University of Rajasthan | 2016-2020
- Six Sigma Certifications | Educate 360 | 2026
- Artificial Intelligence and Business Empowerment | University of Maryland | 2025
- Fundamentals of AI | IIT Bombay | 2025
- AI Appreciate and AI Aware Badges | Intel and AI For All | 2025
- SEO Certification | HubSpot Academy | 2026
